

Slapton Defibrillator renewal - Supplier analysis

	Equipment Owner/ history	Location (power supply required)	Model / Age / supplier	Compatible with current SWAS equipment	Defibrillator renewal date (including heated box)	Defibrillator renewal cost (inc Heated box)	Service plan duration / renewal date	Service plan renewal cost and frequency	Annual community training	Other notes
Existing	Village Assett - purchased via fundraising	FSC porch	Phillips / 8 years old / supplied by South West Ambulance Service (SWAS)	No	Mar-20	Included in service plan renewal costs	4 year plan / 03/2020	£1800.00 paid upfront, every 4 years - next due March/April 2020.	Included in price	AED is at end of 8 year life and old tech so needs replacing with new AED. Service plan includes, loan of defibrillator, electrodes, pads, batteries, x 1 annual awareness course, debriefing service if used, registered on 999 register, Welfare support person using AED. Option to ask the FSC to take over the plan as required by law to have on premises and village fund a new additional box with latest tech.
Proposed	New Village Assett, purchased via PC budget	Central to the village so nearer to parishioners eg: Queens Arms pub/ Gospel Hall	Powerheart GS - fully automatic AED	Yes	Start April 2020	£1515 ex VAT for AED (Discount via Community Defibrillator manager) inc heated box	8 year plan / 2027	£385.00	No included but Delivered by community defibrillator manager, along with Welfare training for users if required	Includes batteries, electrodes, pads warranty over 8 year period. Community defibrillator manager will request the new devices with SWAST for 999 calls and access codes etc as will manage email when its been accessed/ used to facilitate the restock of items Total cost for new AED, Box and with 8 year service plan £1895 ex VAT for a modern / compatible AED with a much lower maintenance plan fee over 8 years not 4.

Discussion points:

1. Location in relation to population density/ power supply/ longevity of location
2. End of AED life in 12 months: Contract take over
3. Changes in life saving technology and kit
4. Ongoing contract span/cost
5. Benefits able to access with community defibrillator manager
